

The world's largest pharmaceutical contract manufacturer and packager of powder products

Family-owned and fully-focused.

For more than 35 years, Pharma Tech Industries has built an outstanding reputation as a family-owned business, providing exceptional development, manufacturing and packaging services to the world's leading pharmaceutical companies.

Our state-of-the-art cGMP facilities feature more than 360,000 square feet of space and nine ISO 8 Clean Rooms. We currently produce over 300 SKUs, ranging from powders, effervescent and solid dose products to cotton swabs and injection molded components. In fact, we are the world's largest pharmaceutical contract manufacturer and packager of powder products.

Outsourcing done right.

These three words are the inspiration behind everything we do at Pharma Tech Industries. From first consultation to shipment of finished goods, this concept dictates the way every procedure, process and product is managed. It not only reflects our operational capabilities, it's evident in every aspect of our business standards – which is why so many industry leaders have come to rely on the PTI team.

One seamless process.

PTI's vertically-integrated facilities offer your supply chain the convenience and simplicity of turnkey sourcing. The entire process—manufacturing, molding, packaging and testing—is managed in one seamless operation, which allows our pharmaceutical clients to focus their resources on areas such as marketing and the development of new blockbuster formulations. In short, PTI's reputation was built on our ability to manufacture products to the most exacting standards and then deliver them within the tightest of deadlines. You could say we thrive under pressure.

"Pharma Tech is an industry leader with a strong sense of customer service, doing what is right, and with continuous improvement as a paramount goal."

Director of Contract Operations
MERCK

Diversity and expertise.
Your recipe for success.

As a full service pharmaceutical contractor, PTI delivers expertise in a range of **contract manufacturing** areas, including: Powders; Solid Dose; Effervescent; and Cotton Swabs.

Every package contains your product... and our reputation.

Technology and trust are the foundation of PTI's packaging capabilities, which include a wide range of prescription, over-the-counter, and cosmetic products. Our **contract packaging** capabilities include a dedicated clean room and the ability to handle: Bottle Filling; Pouch (Unit Dose) Filling; Stick Packs; Cartoning & Labeling; and Custom Packaging Solutions.

"Outstanding Performance" in:

• QUALITY • RELIABILITY • ACCESSIBILITY • REGULATORY

The shape of things to come.

At a time when increasing speed to market and reducing overall costs are more important than ever, PTI's extensive in-house contract molding capabilities stand out. We can mold bottles, caps, components,

and medical devices for in-house and external packaging projects. Our **contract molding** capabilities include: Injection Blow Molding; Single and Bi-Component Injection Molding; Compression Molding; Profile Extrusion; and Dedicated Machine Shop and Tool Rooms for Mold Design and Refurbishment.

Transfer your products,
not your worries.

Need rapid implementation of your own pharmaceutical or personal care production line? No problem. In fact, we have successfully executed numerous transfers in just the past few years. Our team of experienced industry professionals acts as an extension of your staff to manage all of the complexities associated with your technology transfer.

An uncompromising eye on quality and compliance.

Through supportive team work, a process of continuous improvement, and the highest ethical standards, PTI remains committed to quality production and services that go above and beyond expectations – achieving and maintaining World Class Standards of Excellence. Qualified technicians in PTI's state-of-the-art cGMP laboratories conduct testing with the goal of keeping your product release on schedule. Each of our laboratories offers both analytical and microbial testing capabilities. In addition, both of our facilities have received numerous audits by the FDA without any 483 observations.

“Chattem and PTI have been in partnership for many years. What makes our relationship valuable and enduring is the openness, honesty and trust that has developed between us. The PTI team does business with integrity, a commitment to the customer's success and a great sense of humor – a rare combination these days.”
